TELEGRAPH COMPANY

# *Out-of-Town Calls As Easy As Calling Local Numbers*

Nine out of ten out-of-town calls are completed while you hold the line.

Tell the operator—

1. The city or town you want.
2. The out-of-town telephone number, if available, or the name under which it is listed.

For example—

“I am calling Omaha—Walnut 3456.”

(If you do not know the telephone number)

“I am calling Omaha—Anyone at Mr. J. Lowell’s residence, 34 Blank Street.”

This is a station-to-station call because you have not asked the operator to connect you with a particular person.

When you want to talk with a particular person simply tell the operator the town, telephone number, if available, and the name of the person desired. This is a person-to-person call.

---

## **REVERSING CHARGES**

If you wish to reverse the charges on a call, tell the operator when you place the call.

If it is a station-to-station call and the initial period rate is twenty cents, charges will be reversed at the station-to-station twenty-five cent rate; and if the initial period rate is less than twenty cents, reversal of charges is made at the corresponding person-to-person rate; otherwise, no additional charges apply.

## **APPOINTMENT CALLS**

On person-to-person calls, the called person can be notified that you wish to talk at a definite time, convenient to you. No extra charge is made for this service.

## **MESSENGER CALLS**

If the called person does not have telephone service, the telephone company will send a messenger. The rate for the call is the same as the person-to-person rate, plus the cost of sending the messenger.

## **WHY NOT CALL THEM UP?**

The telephone is the most personal and satisfactory way of sending greetings, congratulations, invitations and condolences, for making reservations when traveling, visiting with absent members of the family, and keeping in touch with home and office while away. A telephone call is next best to being there in person.

# GENERAL INFORMATION

## SERVICE DIFFICULTIES

In its endeavor to furnish satisfactory telephone service, the Company necessarily depends to a large extent upon the cooperation of its customers. Therefore, we urge you to report promptly, by telephone, all service irregularities and the existence of worn and defective apparatus such as broken mouthpieces, frayed cords, loose wiring, etc. These repairs and replacements are made *without charge*.

## SERVICE SUGGESTIONS

After you place a call, be sure to allow what you consider a sufficient length of time to enable the called person to reach his telephone, before concluding there is no one there to answer.

When your telephone bell rings, answer as promptly as possible by announcing your number or name.

Be sure the receiver is properly restored at the close of a conversation. Otherwise your line may be "out-of-order" when someone is trying to call you.

## APPLICATIONS FOR NEW SERVICE, MOVES AND CHANGES

If you want a telephone installed or moved, or if you want any changes in your present service, we shall be glad to make a definite appointment to handle your order at a time convenient for you; and the work will be done by us with the greatest possible diligence.

Just call our business office.

## CHANGES AND ERRORS IN DIRECTORIES

No liability shall attach to or be assumed by the Company for any errors or omissions in the compiling, printing or distributing of its directories. In order that the directory records may contain correct listings at all times notification of changes or errors should be given at once at the Business Office of the Company.

## ATTACHMENTS TO DIRECTORIES

The usefulness of the directory is impaired if an outside cover is used, or if anything is pasted on the outside or inside of the book. For this reason, such attachments must not be permitted.

## ATTACHMENTS TO TELEPHONES

The equipment, apparatus, and lines furnished you have been designated to

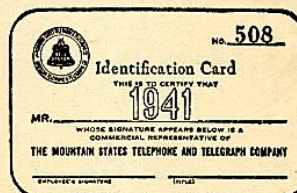

produce the best telephone results. No instrument, appliance or device of any kind not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. You are requested, therefore, not to use or permit the use of such instruments, appliances or devices. The Telephone Company reserves the right to remove such devices, when found, in order to protect the telephone service.

## ADVERTISING TELEPHONE NUMBERS

Many subscribers find it convenient and profitable to use their telephone numbers on stationery and business cards, as well as in their advertising. We encourage this practice, but it should be understood that the assignment of the telephone number does not vest in the subscriber a property right thereto.

We exert every effort to avoid changing telephone numbers, but the needs of the service occasionally compel us to do so. Obviously, when you display your telephone number, the value to you, and to the service as well, depends upon the number being carried correctly at all times. Therefore, in the event your number is changed, it is suggested that corrections be made as promptly as possible.

## IDENTIFICATION OF EMPLOYEES

All employees who are authorized to represent this Company are furnished with identification cards similar to the accompanying illustration,

bearing the name and signature of the employee. Subscribers are requested to refuse access to their premises to anyone who cannot in this way identify himself.

## HOW TO SEND TELEGRAMS AND CABLEGRAMS BY TELEPHONE

To file a telegram or cablegram by telephone follow the instructions given in this directory under the name of the particular Telegraph Company desired.

## IMPROPER LANGUAGE

Profane or obscene language over the Company's wires is prohibited. Subscribers are responsible for the enforcement of this rule. Failure to observe this will constitute cause for discontinuing service.

# OPERATION OF DIAL TELEPHONES

## BAYFIELD, COLORADO

**BE SURE OF THE NUMBER**—If you do not find it in the directory, dial "O" Operator for Information.

**METHOD OF DIALING**—Remove the receiver and listen for "DIAL TONE"—a steady humming sound. Do not start to dial until you hear this tone. Leave the receiver off the hook and:

1. Place your finger in the dial opening through which is seen the first figure of the number you wish to call, and turn the dial to the right until your finger strikes the finger-stop.
2. Remove your finger and without touching the dial allow it to return to its original position.
3. In the same way and in sequence, dial the remaining figures of the number you wish to call.

### DO NOT MOVE THE DIAL OR RECEIVER HOOK DURING CONVERSATION

Note: If you make a mistake in dialing or if your finger slips, replace the receiver at once, wait a few seconds, then remove the receiver and dial the complete number again.

**RINGING SIGNAL**—Within a few seconds after dialing the number, you should hear the "RINGING SIGNAL," an intermittent "burring" sound, indicating the called telephone is being rung.

**BUSY SIGNAL**—If the called line is busy, you will hear the "BUSY SIGNAL," a rapid "buzz-buzz-buzz" sound.

**TO MAKE SUCCESSIVE CALLS**—Replace the receiver for a few seconds after each call.

**EMERGENCY CALLS**—If unable to complete fire, police or other emergency calls by dialing the number 2444, dial "O" Operator.

**ASSISTANCE CALLS**—If you desire the assistance of an operator, or wish to have your telephone repaired, dial "O" Operator.

**BUSINESS OFFICE CALLS**—Dial "O" Operator, and ask for Business Office.

**TO PLACE A LONG DISTANCE CALL**—Dial "O" Operator and place your call with the operator.

**PARTY LINE AND EXTENSION USERS**  
—Be sure to listen for dial tone before dialing to avoid interfering with other parties who might be using the line. If another party interferes while you are dialing, tell him the line is in use, replace your receiver for a few seconds, then remove it and dial again.

**CALLS FROM PAY STATIONS**—Follow instructions shown on the telephone.

**TO CALL ANOTHER PARTY ON YOUR LINE**—When the number you wish to call is the same as yours except for the last figure, you will know that this telephone is on your party line. Dial the number listed in your directory. When you have finished dialing, the BUSY SIGNAL will be received—then REPLACE YOUR RECEIVER. Your telephone bell, as well as that of the called party, will ring. When your bell stops ringing, this will indicate that the called party has answered. Then remove your receiver and proceed with your conversation. To stop your bell ringing in case the called party does not answer, lift your receiver for a few seconds and then replace it.
