NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

ONIONLESS ONION

If you like potato salad but do not like raw
onion, you might try boiling an onion in the
water in which you are boiling the potatoes
for the salad. This gives the spuds the flavor
of onion.

SAVE OLD POCKETS
When your son or husband discards a pair of trousers, cut out any whole pockets and save them. Surprising, how handy they are when pockets in good trousers begin to wear out.

Can FRESH Fruit

For canning, buy only fresh fruit, and put it up as soon as you get it. The enzymes which ripen fruit begin rotting it immediately after it is ripe. Make them work for you and not against you.

SPARE YOUR THUMB!

When driving a tack or a brad, hold it up-right with a tweezers so you won't hammer your thumb. And if you have no tweezers, just stick the tack thru a piece of paper and hold the paper.

QUICK BRASS CLEANER

You can clean copper and brass instantly by rubbing with a mixture of vinegar and salt. The finish won't last as long as with regular metal polish, but the mixture does a fine job.

OPERATION OF DIAL TELEPHONES

BAYFIELD, COLORADO

BE SURE OF THE NUMBER—If you do not find it in the directory, dial "O" Operator for Information.

METHOD OF DIALING—Remove the receiver and listen for "DIAL TONE"—a steady humming sound. Do not start to dial until you hear this tone. Leave the receiver off the hook and:

1. Place your finger in the dial opening through which is seen the first figure of the number you wish to call, and turn the dial to the right until your finger strikes the finger-stop.
2. Remove your finger and without touching the dial allow it to return to its original position.
3. In the same way and in sequence, dial the remaining figures of the number you wish to call.

DO NOT MOVE THE DIAL OR RECEIVER HOOK DURING CONVERSATION

Note: If you make a mistake in dialing or if your finger slips, replace the receiver at once, wait a few seconds, then remove the receiver and dial the complete number again.

RINGING SIGNAL—Within a few seconds after dialing the number, you should hear the "RINGING SIGNAL," an intermittent "burring" sound, indicating the called telephone is being rung.

BUSY SIGNAL—If the called line is busy, you will hear the "BUSY SIGNAL," a rapid "buzz-buzz-buzz" sound.

TO MAKE SUCCESSIVE CALLS—Replace the receiver for a few seconds after each call.

EMERGENCY CALLS—If unable to complete fire, police or other emergency calls by dialing the number 2444, dial "O" Operator.

ASSISTANCE CALLS—If you desire the assistance of an operator, or wish to have your telephone repaired, dial "O" Operator.

BUSINESS OFFICE CALLS—Dial "O" Operator, and ask for Business Office.

TO PLACE A LONG DISTANCE CALL—Dial "O" Operator and place your call with the operator.

PARTY LINE AND EXTENSION USERS—Be sure to listen for dial tone before dialing to avoid interfering with other parties who might be using the line. If another party interferes while you are dialing, tell him the line is in use, replace your receiver for a few seconds, then remove it and dial again.

CALLS FROM PAY STATIONS—Follow instructions shown on the telephone.

TO CALL ANOTHER PARTY ON YOUR LINE—When the number you wish to call is the same as yours except for the last figure, you will know that this telephone is on your party line. Dial the number listed in your directory. When you have finished dialing, the BUSY SIGNAL will be received—then REPLACE YOUR RECEIVER. Your telephone bell, as well as that of the called party, will ring. When your bell stops ringing, this will indicate that the called party has answered. Then remove your receiver and proceed with your conversation. To stop your bell ringing in case the called party does not answer, lift your receiver for a few seconds and then replace it.

Out-of-Town Telephone Calls

as EASY as Calling Local Numbers

Nine out of ten long distance calls are completed while you hold the line.

Tell the operator—

1. The city or town you want.
2. The out-of-town telephone number, if available, or the name under which it is listed.

For example—

"I am calling Omaha—Walnut 3456."

(If you do not know the telephone number)

"I am calling Omaha—Anyone at Mr. J. Lowell's residence, 34-Blank Street."

STATION-TO-STATION CALLS

The above is a station-to-station call because you have not asked the operator to connect you with a particular person or a particular telephone or department reached through a private switchboard. The charge for a station-to-station call is slightly less than for a person-to-person call and begins when the called telephone or private switchboard attendant answers.

PERSON-TO-PERSON CALLS

When you want to be connected with a particular person or with a particular telephone or department reached through a private switchboard, simply give the operator the same information as above and the name of the person or department wanted, also the extension number if known. The charge is slightly more than for a station-to-station call and begins when you reach the person, extension or department you want.

REVERSING CHARGES

If you wish to reverse the charges on a call, tell the operator when you place the call.

If it is a station-to-station call and the initial period rate is twenty cents, charges will be reversed at the station-to-station twenty-five cent rate; and if the initial period rate is less than twenty cents, reversal of charges is made at the corresponding person-to-person rate; otherwise, no additional charges apply.

RATES

DAY RATES apply from 4:30 A. M. to 6:00 P. M. on all days except Sundays.

NIGHT RATES apply from 6:00 P. M. to 4:30 A. M. and all day Sundays.

TO OBTAIN A RATE FOR AN OUT-OF-TOWN CALL

Call or dial operator and ask for the rate operator.

TO PLACE A TELEPHONE CONFERENCE CALL

Call or dial operator and ask for the conference operator who will give you rates and other details.
