THE MOUNTAIN STATES TELEPHONE & TELEGRAPH COMPANY

GENERAL INFORMATION

Service Suggestions

After you place a call, be sure to allow what you consider a sufficient length of time to enable the called person to reach his telephone, before concluding there is no one there to answer.

Answering your telephone promptly will assure you better service and avoid abandoned calls or other attempts to reach you. Time is saved by identifying yourself, your Company, or your Department immediately.

Speak slowly, clearly and directly into the telephone with your lips about one-half inch from the mouthpiece. Otherwise you will not be heard distinctly.

Be sure the receiver is properly restored at the close of a conversation. Otherwise your line may be "out-of-order" when someone is trying to call you.

Service Difficulties

Every effort is devoted toward providing you with the best possible telephone service. We shall appreciate your cooperation in reporting promptly any service troubles or defective equipment, such as broken mouthpieces, frayed cords, or loose wiring. Repairs and replacements due to ordinary usage or unavoidable accidents are made without charge.

"Beep" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of the recorder without this signal is unlawful.

Attachments to Telephones

The equipment, apparatus and lines furnished you have been designed to produce the best telephone results. No instrument, appliance nor device of any kind not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines except as specifically provided in the Tariffs of the Telephone Company. You are requested, therefore, not to use nor permit the use of such instruments, appliances or devices. The Telephone Company reserves the right to remove such devices, when found, in order to protect the telephone service.

Attachments to Directories

To insure the usefulness of the directory, no attachment, holder or auxiliary cover, except such as may be furnished by the Company, shall be used in connection with any telephone directory furnished by the Company.

Changes and Errors in Directories

Every precaution is taken to avoid errors and omissions in the alphabetical telephone directory, but if they occur, the Company's liability for them as provided in its tariffs is limited to an amount not exceeding the charges for the service affected until a new directory is published. In order that the directory records may contain correct listings at all times, notification of changes or errors should be given at once to the Business Office of the Company.

Improper Language

Profane or obscene language over the Company's wires is prohibited. Subscribers are responsible for the enforcement of this rule. Failure to observe this will constitute cause for discontinuing service.

Identification of Employees

All employees who are authorized to represent this Company are provided with a photographic identification card. This card, which is properly countersigned, shows the employee's name, signature and photograph. Subscribers are earnestly requested to refuse admittance to their premises to anyone who cannot furnish this means of identification.

Advertising Telephone Numbers

Many subscribers find it convenient and profitable to use their telephone numbers on stationery and business cards, as well as in their advertising. We encourage this practice, but it should be understood that the assignment of the telephone number does not vest in the subscriber a property right thereto.

We exert every effort to avoid changing telephone numbers, but the needs of the service occasionally compel us to do so. Obviously, when you display your telephone number, the value to you, and to the service as well, depends upon the number being carried correctly at all times. Therefore, in the event your number is changed, it is suggested that corrections be made as promptly as possible.

The Classified Directory

The "Classified" pages of this directory contain the names of business telephone subscribers listed under headings descriptive of the product, service or profession of these subscribers. These pages enable you quickly to determine the name, address, or telephone number of business telephone subscribers who can supply the product or service desired.

HOW TO USE A DIAL TELEPHONE

BAYFIELD **DOLORES** **FORT LEWIS**

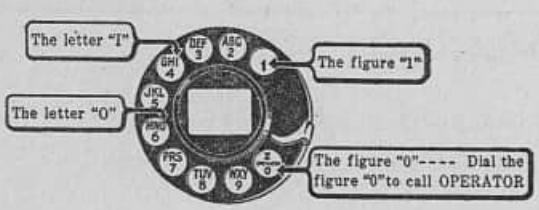

IGNACIO **MANCOS**

For Emergency and Telephone Service Calls See Page 1

DIALING INSTRUCTIONS

1. **BE SURE OF THE NUMBER** — If you do not find it in the directory, dial Operator (figure "0") and ask for Information. Please do not call Information for numbers listed in the directory.
2. **LIFT THE RECEIVER AND LISTEN FOR DIAL TONE**—a steady "humm-m-m-ing" sound. DO NOT START TO DIAL UNTIL YOU HEAR THIS TONE.
3. **WITH THE RECEIVER OFF** DIAL THE *FIRST TWO LETTERS AND NUMERAL* IN THE CENTRAL OFFICE NAME, THEN THE OTHER *FOUR FIGURES*, IN THE NUMBER.

   IF THE NUMBER IS NOT PRECEDED BY AN OFFICE NAME DIAL EACH FIGURE IN THE NUMBER.
4. **WHEN DIALING PULL DIAL AROUND UNTIL FINGER STRIKES THE FINGER STOP** — Remove finger from opening and allow dial to return without interference. DO NOT MISTAKE THE LETTER "O" FOR THE FIGURE "0" NOR THE LETTER "I" FOR THE FIGURE "1".

5. **TO MAKE SUCCESSIVE CALLS** replace the receiver for a moment and proceed as above.

THE RINGING SIGNAL (an intermittent "burr-burr'rring" sound) **OR THE BUSY SIGNAL** (a steady "buzz-buzz-buzz") should be heard soon after the dialing is completed.

IF YOU MAKE A MISTAKE IN DIALING or if your finger slips or does not strike the stop, or if you do not hear the ringing or busy signal within a few seconds, replace the receiver for a moment. Then lift the receiver and when you hear the dial tone, place your call again.

CALLS FROM PAY STATIONS—Follow instructions shown on the telephone.

PARTY LINE AND EXTENSION TELEPHONE USERS—Always listen in before dialing to avoid interfering with other parties who might be using the line.

IMPORTANT — If when calling from a party line, you always get a busy signal after dialing a certain telephone number, it may indicate that you are calling another party on your line. To call another party on your line see instructions below.

TO CALL ANOTHER PARTY ON YOUR LINE

BAYFIELD AND DOLORES—When the number you wish to call is the same as yours except for the last figure, it indicates the telephone is on your party line. Dial the number in the regular manner. You will hear the busy signal just before dialing the last figure in the number. Proceed to dial the first figure and then HANG UP. You will then hear the ring of the called party.

IGNACIO AND MANCOS — When the number you wish to call is the same as yours except for the last figure, it indicates the telephone is on your party line. Dial the number in the regular manner and when you hear the busy signal, HANG UP. Your telephone will ring—either a short ring, or the ring of the called party.

FORT LEWIS—Dial Operator (figure "0"), give the number to her and state that it is the number of another party on your line. If, however, you wish to dial the call yourself, dial Operator (figure "0") and ask for the special code required. She will call you back, give you the code number and instruct you in its use.

As soon as the ringing stops, lift the receiver and begin your conversation. If no one answers after a reasonable time, stop the ringing by lifting the receiver momentarily.

OUT-OF-TOWN TELEPHONE CALLS

CALL BY NUMBER whenever you know it — IT'S FASTER!

When you place long distance calls by number, the operator can frequently complete your call *twice* as fast. If you don't know the number, the operator will give it to you in the course of handling the call—then you can jot it down for use next time. If you'd like a handy booklet for listing frequently-called numbers, "The Blue Book of Telephone Numbers" is free. For your copy, just ask at the Telephone Business Office.

From Bayfield to Ignacio—Dial "8", then dial the Ignacio number.

From Dolores to Cortez, Dove Creek and Pleasant View—Dial "9".

From Ignacio to Bayfield—Listen for dial tone, Dial "8", wait for dial tone again, then dial the Bayfield number.

From Mancos to Cortez, Dove Creek and Pleasant View—Dial "8".

For all other out-of-town calls—call or dial Operator (figure "0").

Tell the Operator:

1. The City or Town you want.
2. The out-of-town telephone number, if available, or the name under which it is listed.

   FOR EXAMPLE: — "Calling Omaha, Nebraska — WAlnut 2-3456." (If you don't know the telephone number) "Calling Omaha, Nebraska — anyone at Mr. J. Lowell's residence, 34 Blank Street."
3. Your telephone number (and name if required) when requested by the operator.

Station-to-Station Calls

The above is a station-to-station call because you have not asked the operator to connect you with a particular person or a particular telephone or department reached through a private switchboard. The charge for a station-to-station call is slightly less than for a person-to-person call and begins when the called telephone or private switchboard attendant answers.

Person-to-Person Calls

When you want to be connected with a particular person or with a particular telephone or department reached through a private switchboard, simply give the operator the same information as for a station-to-station call except that you would give the name of the person or department wanted, also the extension number if known. The charge is slightly more than for a station-to-station call and begins when you reach the person, extension or department you want.

Rate Periods

DAY RATES apply from 4:30 A.M. to 6:00 P.M. on all days except Sundays.

REDUCED NIGHT RATES apply from 6:00 P.M. to 4:30 A.M. and all day Sundays.

Collect Calls

You may "Reverse" charges, that is, have them billed to the called telephone. Simply tell the operator you want to place the call "Collect." If the called party agrees to pay the cost, charges will be billed to his telephone. There is a small additional charge on station-to-station calls when the initial rate is 20 cents or less.

To Obtain a Rate for An Out-of-Town Call

Call or dial Operator (figure "0") and ask for the rate.

To Place a Telephone Conference Call

Call or dial Operator (figure "0") and ask for rates and other details.

When You Know What You Want

But You Don't Know

WHERE TO BUY IT

◆

The business firms whose advertisements you will find in this directory are doing their part to assist you in your everyday shopping problems. Through adequate representation they tell you quickly and easily who sells it, whom to call or where to go for the services or products you desire.

Business men and women today are using this modern method of shopping. They find it saves them miles of steps and hours of time.

Your next shopping problem can easily be solved by referring to the advertisements in this Telephone Directory. We urge you to try it.

Advertising in the Yellow Pages of the Telephone Directory is a direct way to keep your products before buyers. More and more people "Look inside the Classified" before buying.

The ADDRESS
REMEMBERED
but
NAME FORGOTTEN

If the principal business of the firm is known, it is then easy to locate the name and telephone number in the

Classified
TELEPHONE DIRECTORY

LOOK UNDER THE HEADING WHICH IS A GENERAL DESCRIPTION OF THE BUSINESS.

When you call a firm, be sure to tell him you saw his name in the classified.
